An exceptional benefit that reduces healthcare costs

With the rise in healthcare costs, more employers are turning to telehealth to reduce costs, help offset out-of-pocket expenses for employees, and, importantly, assure that their employees will always have care when they need it.

Multiple Cost-Savings

Healthcare Cost Savings: Re-directing unnecessary doctor, urgent and ER visits can reduce healthcare spending significantly.

Productivity: A typical doctors appointment can take half of the work day. Lyric gives employees easy access to a physician wherever they are located.

Flexible Implementation: Lyric can be implemented into most employee populations anytime of the year and live in under 48 hours*.

*48 Hour implementation for standard telehealth services, additional functionality may increase implementation.

Licensed healthcare providers provide clinical services through medical practices affiliated with Lyric and other network providers. Additional or different telehealth requirements may be applicable in certain states; see www.getlyric.com for full terms and conditions.
